Course Comments

Course materials: Please comment on the course materials - readings, handouts, PowerPoint slides, etc. Include which you found most and least useful.

- -PPTs were helpful
- The PowerPoint slides are illustrated clearly and carefully.
- Powerpoint slides were helpful, but would have liked to have annotated/answered versions of the slides as well (keys to the problems on the slides)
- The PowerPoint slides and practice problems were most beneficial and easy to work with on my own time.
- Slides were very elaborate and covered topics in details. The use of graphs and charts aided learning.
- The slides were the most useful and the same with the homework. He gave us some handouts and a link to a textbook which was not really helpful at all.
- The PowerPoint and practice exams are very useful.

Course content: Which topics and class sessions did you find most and least valuable? What other topics do you suggest the instructor include?

- all were helpful
- difficult to focus on lecture after taking an exam
- I find the section on pricing is most valuable.
- None
- I found the classes on pricing and valuation to be most valuable and applicable.

Course content: Which topics and class sessions did you find most and least valuable? What other topics do you suggest the instructor include?

- I found the topic on option strategies and valuation very interesting.
- The session about EMH is very interesting and gives some fun real-life examples.
- I found the initial part the most useful where he overviewed how to build and optimize a portfolio. All of it has been valuable, and I'm not sure I could point out the least valuable portion of the course. I also don't know much about finance other than what I learned from this class, so I can't recommend anything else for the class.

- Comparisons between bonds and stocks could be illustrated.
- Keep doing short breaks, they were extremely refreshing

- Having breaks in a 3-hour class is really helpful, but I would prefer if there were 2 breaks evenly spread out instead of just one or 2 but not evenly spread out.
